

Automation Engineer (Intern to FTE)

Location: Hyderabad, India

About ArcelorMittal

ArcelorMittal is the world's leading integrated steel and mining company, producing smarter steels for people and planet. With operations spanning multiple countries and a strong focus on innovation, sustainability, and digital transformation, ArcelorMittal serves customers across industries including automotive, infrastructure, energy, and manufacturing.

About ArcelorMittal Global Business & Technologies

ArcelorMittal Global Business & Technologies (ArcelorMittal GBT) is the Global Capability Centre (GCC) of ArcelorMittal. As a strategic global hub, ArcelorMittal GBT delivers technology, digital innovation, data and analytics, cybersecurity, and business services that support ArcelorMittal's operations worldwide. ArcelorMittal GBT brings together talented professionals across diverse disciplines to drive transformation, operational excellence, and innovation at a global scale.

Automation Engineer (Intern to FTE)

Role Overview:

We are looking for highly motivated engineering graduates to join us as Automation Engineer Interns, with the opportunity to convert into full-time positions based on performance. This role is responsible for driving automation initiatives that enhance operational efficiency, process standardization, and digital transformation across manufacturing, supply chain, operations, sustainability, finance, and corporate functions. As part of the AI and Data ecosystem, you will collaborate with global stakeholders to deliver scalable automation solutions, influence process optimization strategies, and support enterprise-wide automation adoption.

Key Responsibilities:

- Define and standardize automation frameworks, reusable components, and best practices across projects.
- Evaluate emerging automation technologies and recommend adoption strategies.
- Ensure SLAs and operational performance targets are consistently achieved.
- Monitor automation performance, availability, and business impact through predefined KPIs and dashboards.
- Ensure automation solutions comply with organizational security, compliance, audit, and SOX requirements.
- Contribute to Enterprise Automation Center of Excellence (CoE) initiatives, governance, and standards.

- Drive automation adoption and ensure realization of business value and ROI.
-

Requirements

- Strong foundation in programming and software development concepts.
 - Understanding of automation concepts, workflows, and tools.
 - Basic knowledge of data structures and algorithms.
 - Familiarity with databases, SQL, and data processing concepts.
 - Good problem-solving, analytical, and communication skills.
 - Ability to learn new technologies quickly and work in a collaborative environment.
-

Preferred Skills:

- RPA tools such as UiPath, Automation Anywhere, or Power Automate.
 - Test automation frameworks such as Selenium or Playwright.
 - Python or similar programming languages.
 - Experience with REST APIs and microservices integration.
 - CI/CD tools and Agile methodologies.
 - Cloud platforms such as Azure, AWS, or Google Cloud.
 - Git and version control practices.
-

Must-Have Skills:

- Proficiency in Python or a similar programming language.
- Understanding of automation and RPA concepts.
- Problem-solving and logical reasoning abilities.
- Familiarity with SQL and data handling concepts.

- Strong communication and collaboration skills.
 - Growth mindset and passion for technology and innovation.
-

Eligibility

- **Computer Science, Information Technology, Electronics, or related engineering disciplines.**
 - **B.E./B.Tech students graduating in the applicable hiring year.**
 - **Consistent academic performance.**
 - **Eligible to work from Hyderabad.**
 - **Available to join as an intern and convert to a full-time role based on successful completion of the internship.**
-

Why Join Us?

- Work on cutting-edge AI and digital transformation initiatives.
 - Gain exposure to global business and technology teams.
 - Learn from industry experts and experienced practitioners.
 - Build solutions that create measurable business value.
 - Opportunity to transition from internship to a full-time career with ArcelorMittal GBT
-
